Ojah & Plenti®

Plenti® is a 100% plant-based meat alternative developed and produced by Ojah BV. Through a unique, in-house developed technology, Plenti® gives a mouthwatering texture, outstanding nutritional value and has incredible versatile possibilities in the kitchen. We provide the highest quality meat alternative, giving you the opportunity to take your share in the meat-free market.

Customisable & Versatile

Plenti® Pure is the main ingredient we supply. It solely consists out of a protein concentrate and water and has a neutral flavor profile. With an adjustable tenderness, juiciness and shape, Plenti® is incredibly versatile. In a few steps Plenti® is transformed in products similar to chicken, beef, pork, fish, but 100% plant-based.

Plenti® Prepared is our ready-to-pack solution for Private Label purposes. With a range of proven recipes and tailor-made applications developed by our experienced development team, Plenti® Prepared delivers for every concept and market.

100% plant-based, Gluten-free & Clean Label

Plenti® is recognised for its unique bite, tenderness and meat-like structure, which is achieved by a "High Moisture Extrusion" process. By applying pressure, heat and shear, this method enables us to make a plant-based texture with meat-like features, without any additives. Plenti® is suitable for vegans, vegetarians and any ethnic diet. Ojah's production site is strictly gluten free, enabling people suffering from celiac disease and/or gluten intolerance/allergy to join the plant-protein revolution.

High in protein

The protein levels of Plenti® are comparable to the protein content of meat in quantity and quality. Our soya-protein covers all the essential amino-acids needed by the human body. On top of that, Plenti® contains sufficient dietary fibers and has a low fat content, making Plenti® the perfect component for your meal. Whether you are looking for a low-calorie or high-protein diet, suitable for sports or elderly.

Co-creation & Quality

One of Ojah's corporate values is: Co-operation.

We believe in the synergy of creating together. We go beyond producing and selling products. We support in your strategy to approach the market and help you create the best products suitable for your market. Since 2009, our R&D department has gained special experience and knowledge in the meat free market. Ojah's strong R&D-character was rewarded as the "Most Innovative SME" in The Netherlands.

Ojah's state-of-the-art production facility is BRC-7 certified with the highest AA-grade. Our experienced Q&A department is constantly focused on maintaining and improving the quality of your products. Making sure that you and your consumers can enjoy the highest quality meat alternatives.
